

## Academy of Immunohistochemistry

**Dear participant of the previous editions of our immunohistochemistry courses!**

We would like to inform you that registration is open for the **6th Annual Course of the Academy of Immunohistochemistry, “Diagnostic Immunohistochemistry and Molecular Pathology”**. In line with the tradition of the previous courses we meet again in Krakow, Poland, 9<sup>th</sup>-11<sup>th</sup> of October.

*The course is primarily designed for pathologists, but may also be also interesting for biomedical scientists. This time we will focus on immunohistochemical issues in diagnostic pathology of gastrointestinal tract, liver, pancreas, respiratory tract, kidneys and urinary tract and INI1/SMARCB1 deficient tumors. Important issues of PDL1 testing, common diagnostic pitfalls in hematopathology and soft tissue pathology as well as technical and interpretation pitfalls in immunohistochemistry will be presented. The immunohistochemical approach to unknown primary tumor and emerging diagnostic antibodies as well as application of molecular biologic techniques in diagnostic pathology will also be discussed. Before the course there will be a possibility to study digital slides from carefully selected seminar cases which later will be presented and discussed during the course. The live microscopy session (Consultation Corner) with international experts commenting on-site on received consultation cases in gastrointestinal pathology is also planned.*

**Participants:** The number of participants is limited to 120.

**Faculty:** **M. Debiec-Rychter** (Belgium), **S. Fleming** (United Kingdom), **A. Gown** (USA), **J. Klos** (Norway), **J. Lasota** (USA), **A. Marszalek** (Poland), **M. Miettinen** (USA), **A. Mroz** (Poland), **S. Nielsen** (Denmark), **K. Okon** (Poland), **A. Porwit** (Sweden), **J. Rys** (Poland), **H-U. Schildhaus** (Germany), **D. Tiniakos** (United Kingdom), **M. Vyberg** (Denmark) and **I. Wlodarska** (Belgium).

The fee of 1750,00 PLN (about 400 Euro) will cover all course materials in digital form as well meals indicated in the program and the optional course dinner with cultural program. The EACCME® application for CME course accreditation has been submitted. As with our previous courses, we expect to receive accreditation.

You are welcome to visit <http://ihc-academy.patomorfoлогия-cmuj.pl/> for more details of the program, invited recognized international speakers, and registration. If you are for any reason not able to participate this time, please kindly forward this information to your colleagues.

Looking forward to welcome you in Krakow,

Best regards,

Jan Klos MD  
Course Director
